PROFESSIONAL SUMMARY

Accomplished Product Designer offering over 5 years of specialized expertise in crafting B2B SaaS and B2C digital solutions. Skilled at leading Product Discovery, UX Strategy, and User Research while managing Design Systems, Information Architecture, Wireframing, and Prototyping. Proficient in Interaction Design, Accessibility (WCAG), Usability Testing, and efficient Developer Handoff. Collaborated with Product Managers, Engineers, and key stakeholders to build scalable digital experiences, achieving a 30% boost in user engagement, a 25% decrease in manual effort, and a 20% lift in conversion rates. Expert in Figma, FigJam, Adobe XD, Sketch, Miro, Jira, Dovetail, Notion, and modern AI-driven design methodologies.

Product Discovery • UX Strategy • User Research • User Interviews • Journey Mapping • Information Architecture • Interaction Design • Wireframing • Prototyping • Design Systems • Accessibility (WCAG) • Usability Testing • Enterprise SaaS • Mobile App Design • B2B • B2C • Agile • Scrum • Developer Handoff • Figma • FigJam • Adobe XD • Sketch • Miro • Jira • Dovetail • Notion • UserTesting • ChatGPT • Claude • Uizard • Midjourney

PROFESSIONAL EXPERIENCE

Senior UX Designer | Coforge (Feb 2023 – Present)

- Lead end-to-end product design for enterprise SaaS platforms in collaboration with Product Managers, Engineering and business stakeholders.
- Defined product vision, user journeys and interaction models for a Travel Management System serving global coffee traders (Volcafe).
- Conducted user research, usability testing and workflow analysis that increased user return rate by 30%.
- Redesigned business-critical workflows, reducing manual effort by 25% through scalable long-term UX solutions.
- Created wireframes, interactive prototypes and production-ready UI in Figma while supporting developer handoff and design consistency.

Lead Product Designer | TrueFan (Oct 2022 – Jan 2023)

- Led mobile-first UX from discovery to implementation.
- Improved conversion by 15% through research-driven UX improvements.
- Built reusable UI components and prototypes.
- Worked in Agile cross-functional teams.

UI Designer | Krishi Network (May 2021 – Sep 2022)

- Conducted qualitative research with rural users to uncover adoption barriers.
- Improved task completion by 15% by redesigning onboarding and navigation.
- Enhanced accessibility and simplified first-time user journeys.

Architectural Designer | SAKA Studio (Jun 2018 – Sep 2020)

- Reduced construction timelines by 25% through innovative spatial planning and furniture design.

Interior Designer | Sparrow Interactive (Aug 2017 – May 2018)

- Improved client sales by 15% through experience-centre design.

SELECTED PROJECTS

- Enterprise Operations Platform – Redesigned enterprise workflows using research, task analysis and prototyping, reducing manual effort by 25%. [Case Study — ED&F Man Risk Incident Management](#)
- Travel Management System (Volcafe) – Designed complex enterprise workflows and data-heavy interfaces for global operations. [Case Study 02 — Volcafe Travel Management System](#)
- Mobile Engagement Platform – Increased conversion by 15% through iterative UX optimization and usability testing.

TOOLS

Figma, Figma AI, FigJam, Adobe XD, Sketch, Miro, Jira, Dovetail, Notion, UserTesting, ChatGPT, Claude, Make, Uizard, Midjourney

CERTIFICATIONS

- Certified Usability Architect (CUA) – Human Factors International (2026)
- AI for Human-Centered Design Primer – HFI (2025)
- Delighting Customers with Design Thinking – Skillsoft (2025)
- UI/UX Design Bootcamp – IMAGIEXP (2021)

EDUCATION

Bachelor of Architecture | Ansal University, Gurugram (2017)
